

KV2 Fittings / TIV Tubing Warning Statement

WARNING

KV2 Fittings and TIV Tubing are designed only for use in vehicles where air is utilized as the operating fluid. As such, KV2 Fittings and TIV Tubing should only be used in a manner consistent with the manufacturer's specifications. Go to www.smcusa.com for details. If you have questions, please contact SMC at 1-800-762-7621 during regular business hours Monday through Friday.

Using KV2 Fittings or TIV Tubing improperly or in a manner inconsistent with the manufacturer's specifications may result in serious injury or property damage. For example, KV2 Fittings and TIV Tubing are not intended for use in environments exceeding 145 p.s.i. and 140°F. KV2 Fittings and TIV Tubing are intended for use only as defined in 49CFR571.106. Further, the U.S. Department of Transportation prohibits the use of KV2 Fittings and TIV Tubing as a connection between (I) a semi-tractor and trailer, or (II) a driveshaft and chassis.

KV2 Fittings and TIV Tubing are to be sold in original package quantities only. KV2 Fittings and TIV Tubing are not to be sold on an individual basis.
